

Deborah Johnson

Deborah Johnson is a brilliant, multi-talented vocalist and pianist, composer, arranger, and recording artist with insightful stories and a rich tapestry of songs. She has thrilled audiences worldwide with her innovative, spectacular piano arrangements and her voice, with a range compared to great artists such as Barbra Streisand and Sarah Brightman.

The depth of her talent is exemplified in her unique arrangements and original compositions. With both classical training and rock-gospel roots, Deborah is a dynamic "tour-de-force"—a "must see"!
